EDUCATION

Babu Banarasi Das Institute Of Technology And Management
Bachelor of Technology in Computer Science

Sep 2021 - July 2025

SKILLS

Languages: C/C++, Python, JavaScript/TypeScript, HTML/CSS, Node.js

Tools: Git/GitHub, VS Code, Vercel

Frameworks: React.js, React Native, Tailwind CSS, Bootstrap, Express.js, Next.js, Django

Database: MongoDB/Mongoose, SQL

PROJECTS

Weather Web App | *HTML5, CSS3, JavaScript, Fetch API, Git, VS Code* (View Project)

- Fetches and displays current weather details such as temperature, humidity, wind speed, and conditions using an API.
- Allows users to search for weather information by entering city names.
- Ensures compatibility and usability across all devices, including desktops, tablets, and smartphones.

Recue Net | *React.js, Tailwind CSS, JavaScript, Git, VS Code, MongoDB, Express.js, Node.js* (View Project)

- Built a full-stack disaster management platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented secure login and registration with role-based access control for Volunteer and Rescuer roles.
- Built an interactive Volunteer Dashboard displaying task stats, emergency alerts, recent activities, and upcoming events, along with critical contact information.
- Implemented real-time request handling, role-based navigation, and responsive UI to ensure smooth coordination during crisis situations.

AI Chat-Bot | *React.js, Google Generative AI, CSS3, Git, VS Code* (View Project)

- Designed and developed a responsive front-end interface using React.js.
- Connected external APIs to fetch dynamic celestial data and implemented error handling for robust performance.
- Improved rendering speed and user interaction by optimizing state management and API calls.
- Created detailed and interactive visualizations of data, enabling users to easily interpret complex information.

Whatsapp-Clone | *React-Native, Expo, Javascript, Git, VS Code* (View Project)

- Developed a WhatsApp-like mobile app using React Native and Expo, with a clean UI and smooth navigation.
- Implemented OTP-based login, and designed functional Chats, Status, and Calls screens with seamless transitions.
- Focused on Android development, using VS Code, React Navigation, and optimized for mobile responsiveness.

EXPERIENCE

Internship Trainee | *Shape My Skill* June 2024 – Aug 2024 (Certificate)

- Mastered the MERN stack (MongoDB, Express.js, React.js, and Node.js) by gaining insights into the full-stack development workflow, including front-end design, API integration, back-end programming, and deployment.
- Created and launched web applications featuring responsive UI built with React, and robust database management using MongoDB.
- Resolved challenges in API optimization, state management and user data security, ensuring a reliable and secure application experience.

ACHIEVEMENTS

- Certified in **Google Cloud** through Google Cloud Career Practitioners Campaign organized by GDSC BBDITM.
